Washington Update – MAP-21 Implementation

- Metropolitan Transportation Planning
  - Significant changes
    - Transit representation on MPO Boards
    - Performance-based planning

Within two years of enactment of MAP-21, MPOs serving TMA areas shall consist of:

- Local elected officials
- Officials of public agencies that operate major modes of transportation including representation by providers of public transportation
- Appropriate state officials.

MPO does not need to re-designate to meet this provision.
Support the seven National Goals and Transit Purposes

- Establish performance targets to address surface transportation system performance measures
- Selection of targets shall be coordinated with State and providers of public transportation to ensure consistency to the maximum extent practicable.
- Targets track progress towards achievement of performance outcomes for the region.
- May adopt locally defined performance measures and targets
Establish performance targets not later than 180 days after the date the State or public transportation provider establishes targets.

Transportation Plans shall include:

- A description of the transportation system performance measures and performance targets;
- System performance report and subsequent updates evaluating the condition and performance of the system including the progress achieved in meeting the performance targets

TIP is designed to make progress toward achieving transportation system performance targets.

Since 2000, spending from the Highway Trust Fund has generally outpaced revenue collections.

Since 2008 Congress has transferred $41 billion from the general fund of the Treasury to the HTF.

Another $12.6 billion is scheduled to be transferred in 2014.

An additional $15 billion is needed in 2015 and increasing amounts in subsequent years to prevent future shortfalls, if spending was maintained at the 2013 level, as adjusted for inflation.
