S. 1813, Modification to Amendment Boxer, Inhofe, Baucus, Vitter #1

On page 21, strike lines 7 through 9.

Add at the end the following:

On page 36, strike line 3 and all that follows through page 38, line 2.

On page 46, line 4, strike "10 days" and insert "15 business days".

On page 91, line 11, insert ", while respecting the existing inspection schedule of each State" before the period at the end.

On page 198, line 17, strike "or;".

On page 198, line 18, strike "(vi)" and insert "(vii)".

On page 198, after line 17, insert the following:

"(vi) are public roads within or providing access to an Indian reservation or Indian trust land or restricted Indian land that is not subject to fee title alienation without the approval of the Federal Government, or Indian and Alaska Native villages, groups, or communities in which Indians and Alaskan Natives reside, whom the Secretary of the Interior has determined are eligible for services generally available to Indians under Federal laws specifically applicable to Indians; or".

On page 358, strike line 8 and all that follows through line 19.

On page 358, line 20, strike "(2)" and insert "(1)".

On page 359, line 10, strike "(3)" and insert "(2)".

On page 360, strike line 13 and all that follows through line 23.

On page 360, line 24, strike "(G)" and insert "(F)".

On page 406, line 7, strike "(a) Positive Protective Devices.—".

On page 407, strike line 15 and all that follows through page 408, line 2.

Barrasso #2

The National Freight Program limits a state's ability to designate a road as a critical rural freight corridor, even if there is heavy freight traffic on the road, unless the road connects to the primary freight network or Interstate System. It should not matter whether or not the road to be designated connects directly or indirectly to the Interstate as long as it is supporting significant freight traffic. This amendment provides the states with more flexibility to designate rural routes as critical rural freight corridors. The change would not impact any other state, but would provide a State greater flexibility in its use of its own freight program apportionments.

91.0

John Barrasso
AMENDMENT NO Calendar No
Purpose: To clarify the scope of rural freight corridors.
IN THE SENATE OF THE UNITED STATES—112th Cong., 1st Sess.
S.
To reauthorize Federal-aid highway and highway safety construction programs, and for other purposes.

6 On page 176, between lines 10 and 11, insert the fol-
7 low/rng:
8 (3) connects to a grain elevator on a rail line
9 or another intermodal transfer point.

Barrasso #4

The bill authorizes the Secretary to establish performance measures that will increase the regulatory burden on the states. The bill does not indicate how many measures the Secretary can set. The amendment would minimize the risk that performance measurement and management would become a burdensome form of Federal regulation of States. The amendment also makes clear that in developing performance measures and targets the Secretary and States have flexibility to recognize that there are differences between urbanized and rural areas.

- 1 a State may, as appropriate, provide for different perform-
- 2 ance measures and targets for urbanized and rural areas.

Boozman Amdt. #1 - S. ___ Moving Ahead for Progress in the 21st Century Act (MAP-21)

Summary — The Boozman Amendment #1 (cosponsored by Senator Carper) would provide an accountability study for the Congestion Mitigation and Air Quality (CMAQ) program. Of the amounts made available for the CMAQ program, \$1.25M (for each fiscal year authorized by the bill) would be set-aside to fund an independent assessment of the real-world outcomes from a representative sample of federally-supported surface transportation actions intended to reduce emissions or lessen traffic congestion.

amen	DMENT NO Calendar No

2	"a Pederal sid system under this chanter
3	"(m) AIR QUALITY AND CONGESTION MITIGATION (d)
4 M1	EASURE OUTCOMES ASSESSMENT RESEARCH.—
5	"(1) In general.—The Secretary, in consulta-
6	tion with the Administrator of the Environmental
7	Protection Agency, shall carry out a research pro-
8	gram to examine the outcomes of actions funded
9	under the congestion mitigation and air quality im-
10	provement program since the enactment of the
11	SAFETEA-LU (Public Law 109-59).

1	"(2) GOALS.—The goals of the program shall
2	include
3	"(A) the assessment and documentation,
4	through outcomes research conducted on a rep-
5	resentative sample of cases, of—
6	"(i) the emission reductions achieved
7	by federally supported surface transpor-
8	tation actions intended to reduce emissions
9	or lessen traffic congestion; and
10	"(ii) the air quality and human health
11	impacts of those actions, including poten-
12	tial unrecognized or indirect consequences,
13	attributable to those actions;
14	"(B) an expanded base of empirical evi-
15	dence on the air quality and human health im-
16	pacts of actions described in paragraph (1); and
17	"(C) an increase in knowledge of-
18	"(i) the factors determining the air
19	quality and human health changes associ-
20	ated with transportation emission reduc-
21	tion actions; and
22	"(ii) other information to more accu-
23	rately understand the validity of current
24	estimation and modeling routines and ways
25	to improve those routines.

1	"(3) Administrative elements.—To carry
2	out this subsection, the Secretary shall-
3	"(A) make a grant for the coordination, se-
4	lection, management, and reporting of compo-
5	nent studies to an independent scientific re-
6	search organization with the necessary experi-
7	ence in successfully conducting accountability
8	and other studies on mobile source air pollut-
9	ants and associated health effects;
10	"(B) ensure that case studies are identified
1	and conducted by teams selected through a
12	competitive solicitation overseen by an inde-
13	pendent committee of unbiased experts; and
14	"(C) ensure that all findings and reports
15	are peer-reviewed and published in a form that
16	presents the findings together with reviewer
17	comments.
18	"(4) REPORT.—The Secretary shall submit to
19	the Committee on Environment and Public Works of
20	the Senate and the Committee on Transportation
21	and Infrastructure of the House of Representa
22	tives—
23	"(A) not later than 1 year after the date
24	of enactment of the MAP-21, and for the fol-
25	lowing year, a report providing an initia

1	scoping and plan, and status updates, respec-
2	tively, for the program under this subsection;
3	and
4	"(B) not later than 2 years after the date
5	of enactment of the MAP-21, a final report
6 ·	that describes the findings of, and recommenda-
7	tions resulting from, the program under this
8	subsection.
9	"(5) FUNDING.—Of the amounts made avail-
10	able to carry out this section, the Secretary shall
1	make available to carry out this subsection not more
2	than \$1,250,000 for each fiscal year.". (\$1,000,000

On page 447, line 9, after "503(b)" insert ",503(d),".

S. 1813, Crapo #2

Current law provides for "consultation" by a State with local officials in nonmetropolitan areas or for states to "consider" the concerns of such local officials. To change these interactions to "coordination" or "cooperation" requirements represents a large increase in work that could well cause delay and appears inconsistent with efforts to streamline the planning and project delivery process. This amendment would strike coordinate/coordination and insert or substitute "consult" or "consultation" to return to the law as currently written.

S. 1813, Crapo #3

MAP-21 would newly mandate inclusion of a great deal of project-oriented material into a State's Statewide Transportation Plan (long-range transportation plan). What would be newly mandated reads as if a long-range plan must be constructed as if it were the first draft of a Statewide Transportation Improvement Program (STIP), a list of projects, but covering more years. This is highly inconsistent with the way many States plan. Many States adopt what are known as "policy plans", which focus on key principles. For such States, translating the broad principles into specific projects occurs in development of the STIP, not in the development of the Statewide Transportation Plan. The degree of detail newly required for plans by the revision to current law is very substantial and would be a major change for States that follow the policy plan approach. Under the amendment, States with policy plans could continue to follow their current approach.

Johanns 2

Amends the National Highway Performance Program so that States are given a minimum of 90 days to comment on a DOT regulation establishing minimum standards for States to use in developing and operating pavement and bridge systems, and requires DOT to consider those comments. Requires also that before DOT denies a certification of a State, a state must be given specific actions necessary to cure a state plan and at least 90 days to cure the plan, and that during the 90 days no legal affect shall flow from a denial.

S. 1813 Sanders Amendment #1

Summary:

Amends the Emergency Relief program to give the Secretary the discretion to waive the \$100 million per state cap and extend the 180 day period for emergency repairs in years when there is a supplemental appropriation for ER. It also gives the Secretary the discretion to provide assistance at increased federal share if the total amount a state receives in ER funds for any single natural disaster or catastrophic event exceeds its total annual apportionment for the year in which the event occurred. This simply codifies what appropriators routinely do with supplemental ER bills.
